

PRODUCT SHEET

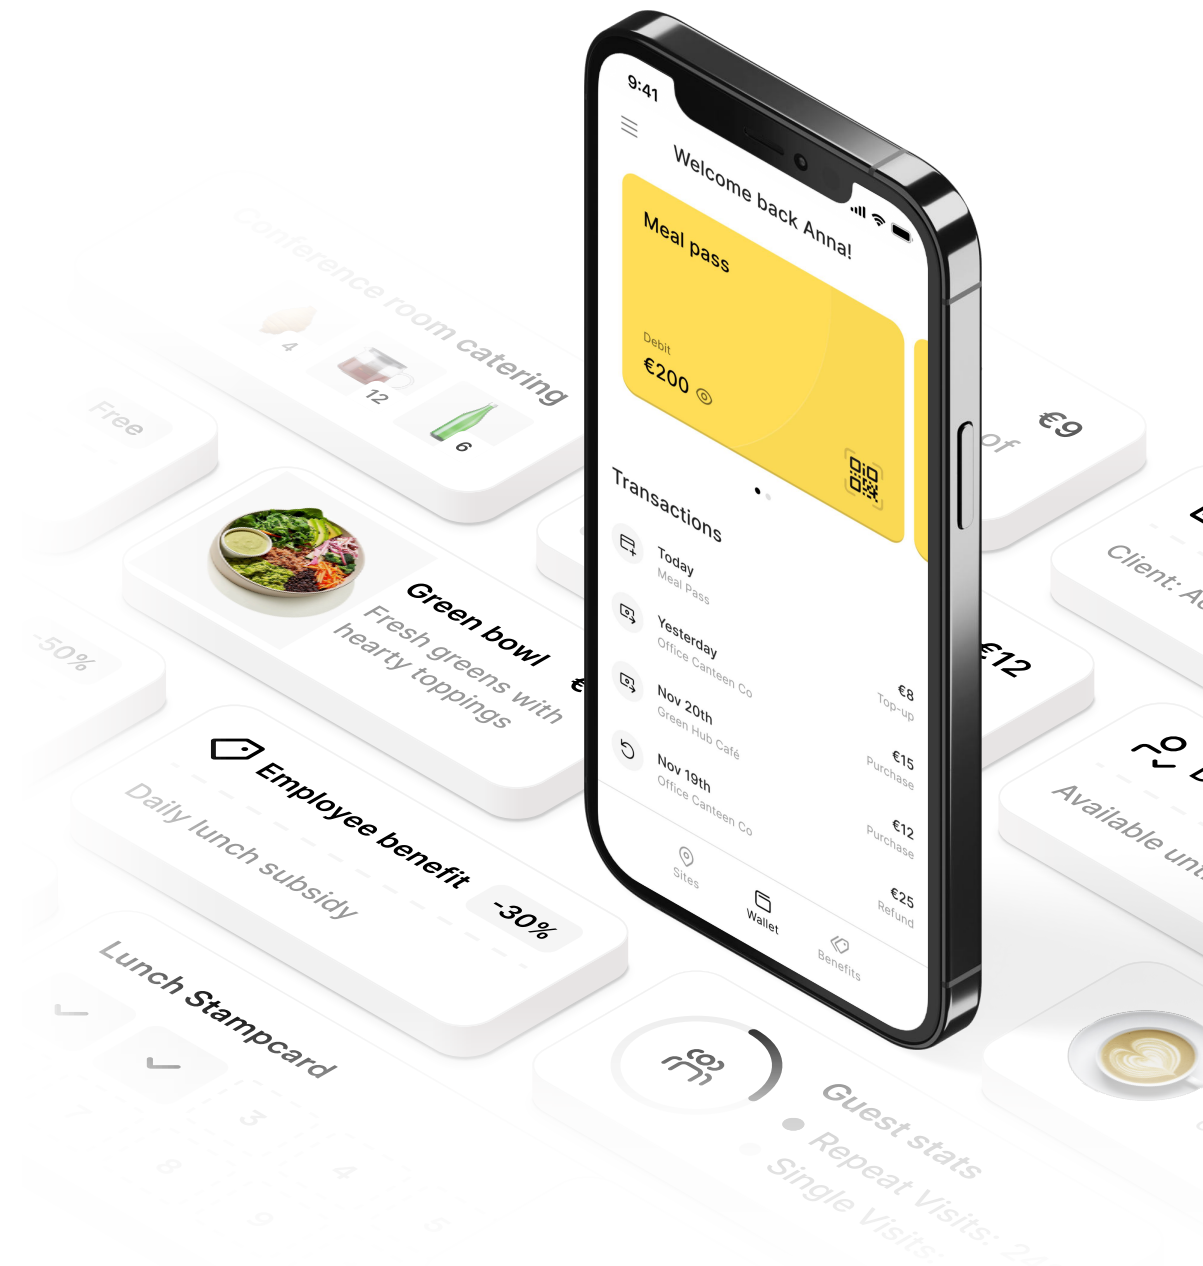

The guest app built for contract catering

Say goodbye to rigid plastic cards and shiny apps that don't truly integrate.

Mix features to fit your needs, at every site—start small and scale as you go. Create meaningful experiences, build loyal communities, and turn data into growth.

Best of all—you're up and running within weeks.

Value from day one

With the Pej Guest App you create value for the guest and your business from day one.

Roll out across one or multiple sites with features like menu display, notifications and news feed, custom games with rewards, digital identifiers, self-signup and site maps.

Then, when you're ready, integrate your digital ecosystem to roll out the full potential—loyalty, benefits, top-ups, payments, invoicing, and full-scale data for strategic growth.

“With Pej, we can create a branded experience that strengthens our relationship with guests and drives growth”

SARA PHILLIPS, CEO AT EATERY

Build your perfect, value based setup

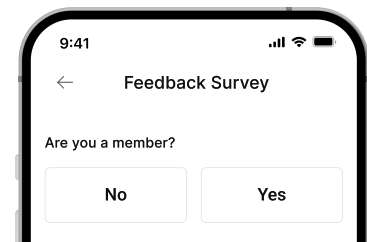

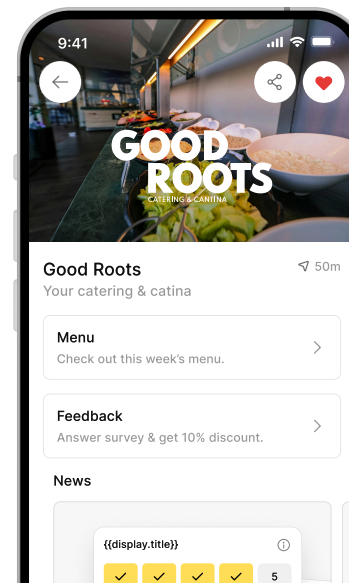

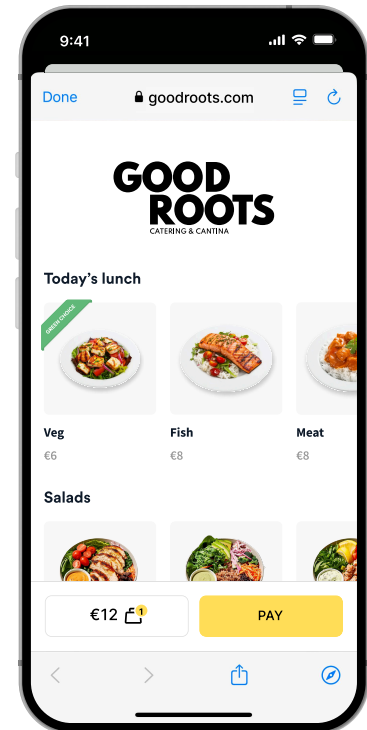

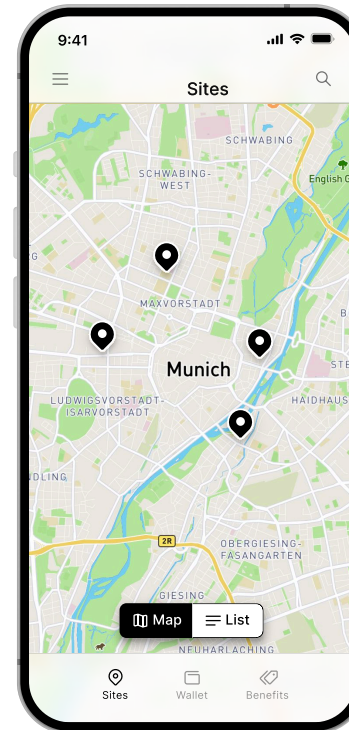

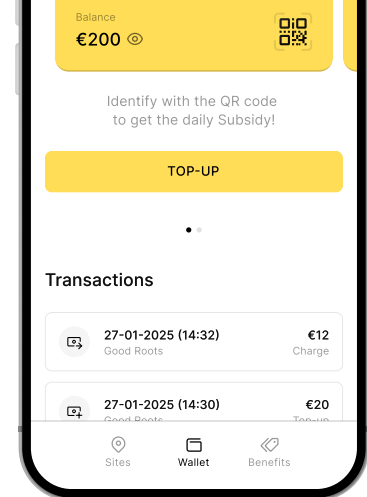

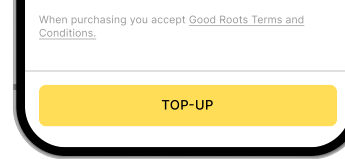

Mix and match features to fit your needs at every site

No rigid systems, no all-or-nothing approach—grow at your own pace

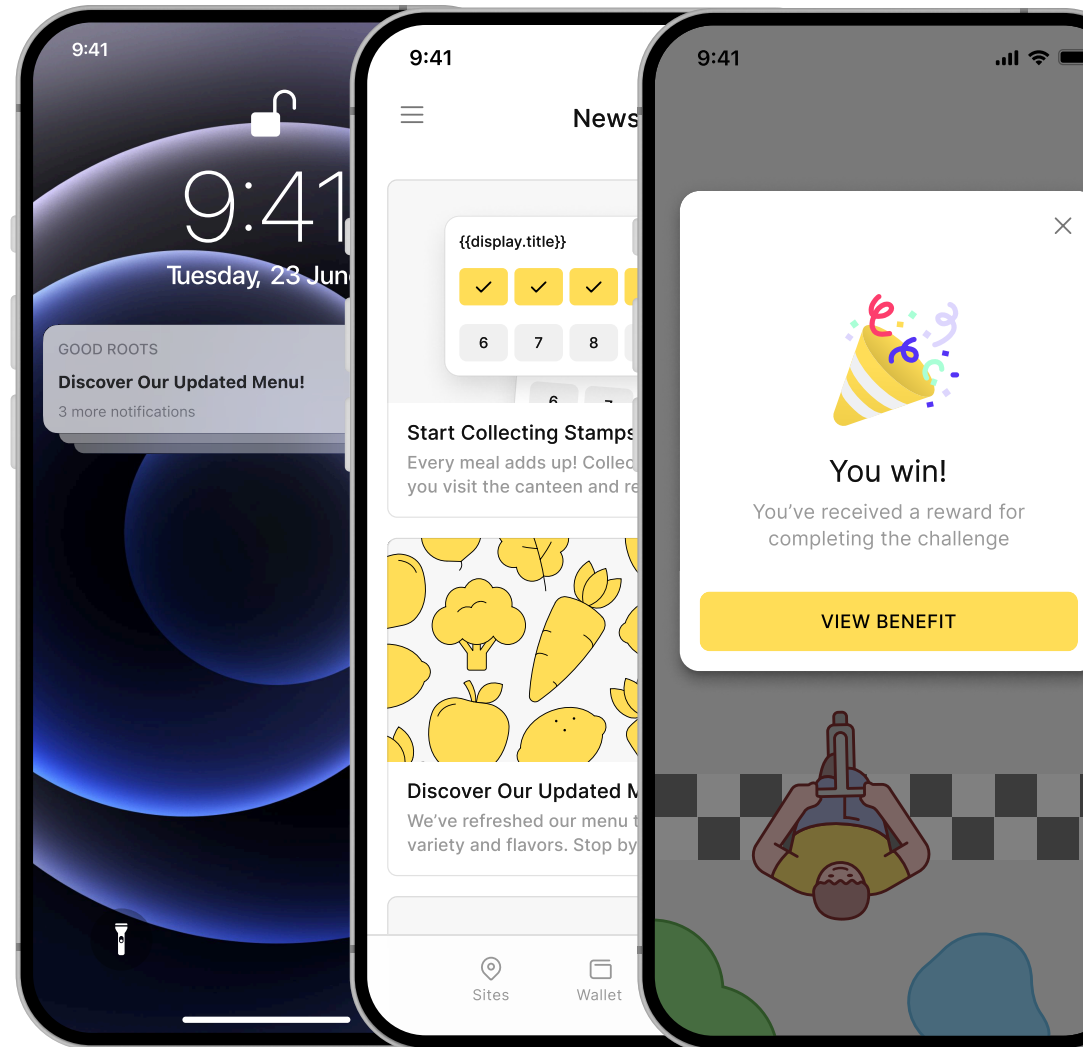

Why not roll out a digital menu first, then integrate ordering, the POS and add loyalty when you're ready?

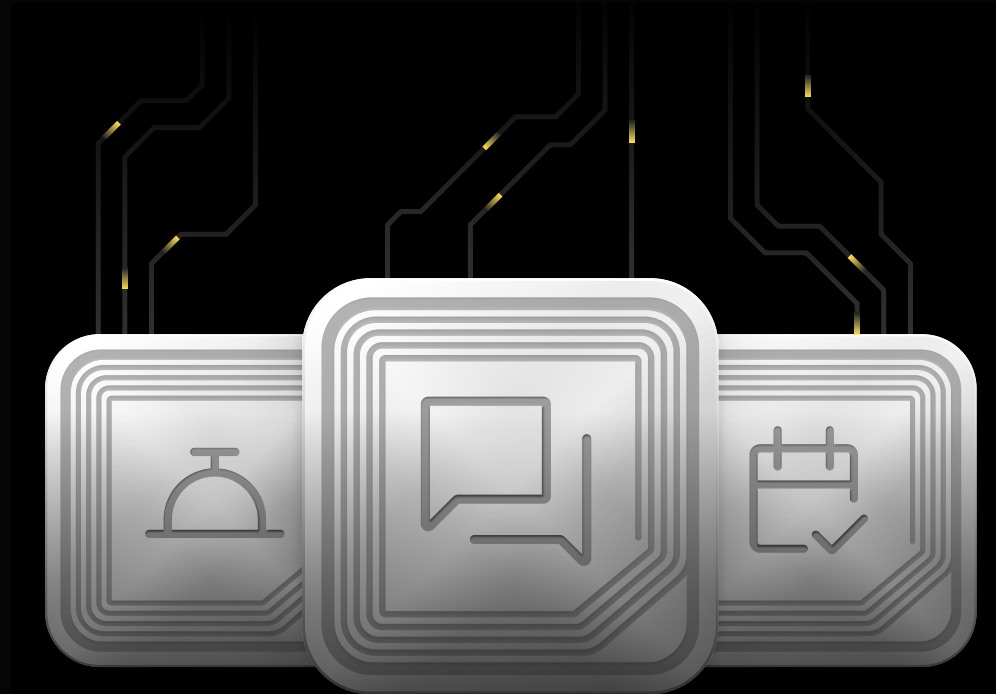

Create a strong community

-  **Communicate with guests directly**—send personalised offers & exclusive content
-  **Loyalty & rewards**—keep guests coming back with incentives that drive repeat visits
-  **Keep it fun and engaging** with customised games with rewards

Link to services and solutions you already use

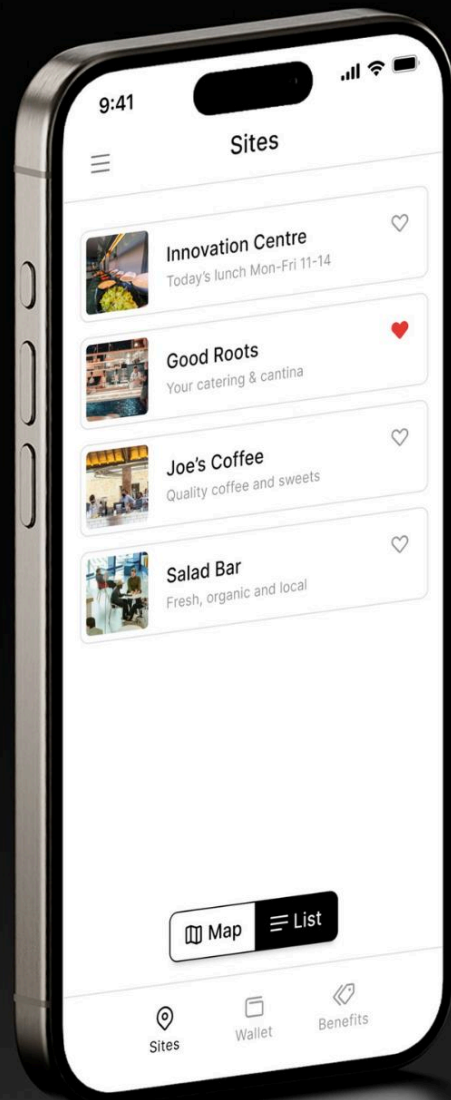

Link your existing solutions to the app for a smooth guest experience. Integrate event, table, and room booking, connect your feedback system or Google Reviews, and sync catering solutions and social media—all in one place.

Real insights, smarter decisions

-  Get insights into guest behavior—what they order, when they visit, and how to bring them back
-  Use data to run smarter promotions and increase revenue without extra work
-  Gain a competitive edge by making data-backed strategic decisions

Your brand, your app

- Create a portfolio of customised apps that looks and feels like different clients, brands and sites
- Tailor the features to match your needs, from ordering to loyalty and beyond
- Let your brand shine while we power the experience. Integrate with existing facility apps or let the guest app stand alone

A platform designed for efficiency

One platform that handles it all—ordering, payments, loyalty, food benefits and guest engagement

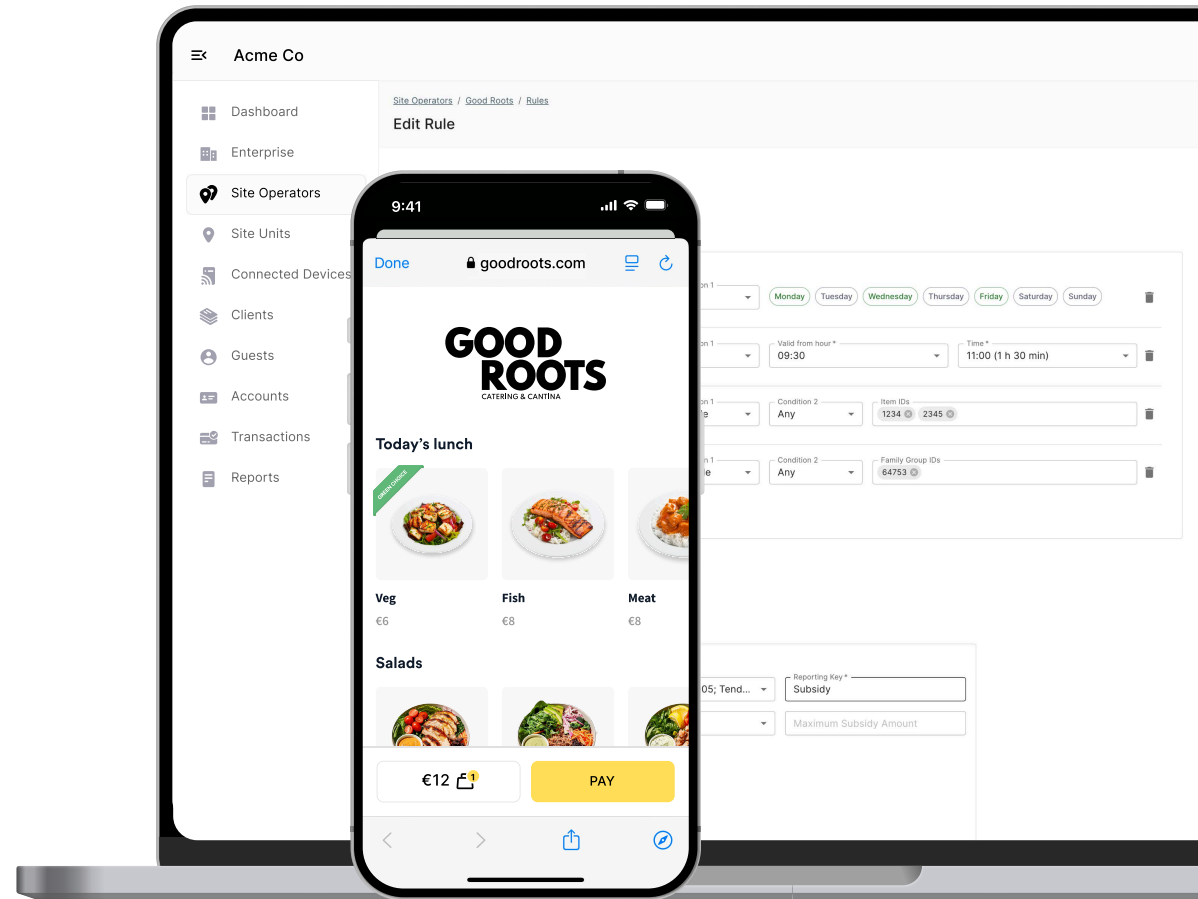

Built for multi-site contract catering, making it easy to scale across locations

No extra admin burden—automated processes free up staff time

FAST SETUP & ADMIN THAT IS ACTUALLY EASY

- ✓ Get up and running in no time—no complex onboarding or long implementation
- ✓ Make instant updates—menus, offers, and campaigns go live in seconds
- ✓ Manage everything in one place with a simple, intuitive interface
